CY THOMPSON SAYS---

DO YOU KNOW

That according to the most recent census report there were in the United States in 1911 nearly four million men and women over 65 years of age, nine out of ten of whom were wholly or partially dependent upon charity? And do you know that according to the most reliable figures obtainable in 1910, nine out of ten of the widows in this country were without a home; and that two out of every three found it difficult to get two square meals a day and the necessities of life?

If these facts are less true today, it is because of life insurance. A policy started today affords protection for creditors and some one you may love, and it provides an old-age fund for yourself when you might otherwise be dependent upon relatives or charity. Think it over.

You may protect your credit and your home
by insuring your life now in the old, old

Number 5

OPINION AND COMMENT

With this issue of THE REVIEW, the Alumni Loyalty Fund, a brand new member of the forces that are working for the permanent upbuilding of the University, makes its bow to the world. THE REVIEW ENTERS THE ALUMNI LOYALTY FUND hails it with joy and bids it "God-speed!" with complete confidence that as the years pass it will prove to be a source of great power financially to the institution, and a source of inspiration both to it and to the alumni. Our optimism as to its success isn't merely an inference based on the success of similar funds at Brown, Cornell, Yale, and other colleges. (The Yale Alumni Fund amounts to nearly a million dollars.) We are aware that their alumni have more to give than ours. The real source of our optimism is our knowledge of the wonderful spirit of loyalty and deep desire to cooperate in the work of the University that has been shown by the alumni in recent years. This is the real wealth that the Loyalty Fund relies upon for its success, and out of which the suggestion grew.

It was proposed by the Class of 1905, and the proposition backed by them with a gift of \$1,000. It was endorsed by THE REVIEW, and by enthusiastic letters from alumni all over the State and country. The President endorsed it in his report, and the Trustees at their recent meeting, made it a fact by giving it their official approval. The plan, in simplest brevity, provides for a fund accumulating through yearly or occasional subscriptions from individual alumni, through bequests, and class gifts, to be administered by a group of alumni trustees, the principal to be held intact, as an endowment, the interest to be used for general University improvement. In the letters from the alumni, printed in the December REVIEW, the main point stressed was that such a fund would give to the alumnus of small or moderate means the opportunity long desired of giving to the institution that trained him tangible evidence of his loyalty, of his desire to make a contribution, however small, to its increasing usefulness and greatness. It gives this opportunity equally to the man of small means and the man of large means, and it gives the assurance that whatever the subscription, it will be put to a large and permanent service.

The alumni are eager to have the University steadily grow into the truly great university that the State now requires. And although they know how difficult and complex the task, in the face of all the circumstances, is, they have faith that it can be done. They mean to help do it, not merely for the institution's sake because they are alumni; but for the State's sake, because they are citizens. There are many ways practically to help, and so keep the desire to help from perishing as a vague, unrealized dream. Some of them come to us in our relation to the University as citizens; some of them in our relation to her as her sons. The Alumni Loyalty Fund is clearly of this latter class.

However, it will not be presented as a claim on the part of the University on the gratitude of her sons. It was designed rather to open the best way to those who are eager for the opportunity to perpetuate and to increase the privileges that they enjoyed. It expects merely to make itself known and to go no further in the way of solicitation. It loves a cheerful giver,—thrills over him, in fact—but it isn't interested in any other kind.

The Treasurer of the University is authorized to receive subscriptions to the Fund, and THE REVIEW confidently believes that every man of the six thousand Carolina alumni will have some part in the creation of what promises to be a great forward step taken in the life of the University.

Dr. Charles H. Herty, of the Department of Chemistry, who, in December, was paid the high and unusual honor of re-election to the UNIVERSITY INFLUENCE presidency of the American Chemical Society, on January fifteenth, appeared before the Ways and Means Committee of the House of Representatives to testify on the dye-stuff situation. His position before the Committee, briefly, was that:

- (1) We have an abundance of raw material and scientific skill, and a home market for the products.
- (2) The necessity of economic utilization of by-products, so characteristic of this highly interlaced industry, and the difficulties involved in expanding

laboratory experiments into plant scale operations, will make operations inefficient during a period of six to eight years.

(3) Therefore, a reasonable protection during this period is necessary to assure a union of sufficient capital and scientific skill to enable the industry to expand sufficiently to supply the national need.

(4) The firm establishment of this industry will release us from German monopoly and prevent a recurrence of such a crisis as confronts our mills today, while German competition after the war and the Sherman anti-trust law will hold down prices and check monopolistic tendencies on the part of domestic manufacturers of dye-stuffs.

Dr. Herty's testimony was clearly and pointedly put, and evidently made a great impression on the Committee. Dr. Herty has also been in consultation and correspondence with editors and leaders of public opinion in regard to this particular phase of the national self-containedness of our industrial life throughout the past year.

Here is a strategic point of connection in the relations between statesmanship, industry (particularly **THE UNIVERSITY AND INDUSTRY** the industrial welfare of our own section), and the university, where the function of the university is more obviously seen, though not more really present than is usual. The main arch of modern industry rests on the laboratory. Germany first saw this, and fully seized upon it, and German supremacy resulted from a clearly conceived policy of replacing through its universities "by intellectual forces the physical forces lost by war." The tremendous importance of building up the dye-stuff industry is now abundantly clear to every one. The wise solution of it is the joint task of the statesman, the business man, and the scientist. Here, as in Germany, and as in Japan and England where the struggle to build up an independent industry is also going on, it is the university that holds the key to the permanent solution.

If you are a member of one of these classes, the one spot in the world for you to be on Tuesday, May 1866 30, is Chapel Hill. Tuesday, May 1891 thirtieth, is Alumni Day during 1916 1896 the coming commencement, and TUESDAY 1901 1906 there are already convincing signs MAY 30 1911 that the increased interest recent- 1915 ly shown in it by the alumni is to take this year another *long* jump forward. The luncheon last year, contrary to all precedents and

rules for such occasions, was a real joy. The student cabaret was good; the luncheon was good; the speeches were few and short, and consequently good, and the presence of the ladies was a happy change for the better. In addition to the student stunts at the luncheon, THE REVIEW would like to see shine once more the stars that glittered in other days, and reveal once more the genius that made them famous. Governor Francis Winston has signed up already as a head-liner on the alumni bill, and the Class of 1911 expects to hold a heavy share in the honors. It will be a round-up of real talent, and any class with a Harry Lauder in it, or a Lew Dockstader, or—well, an Eva Tanquay (for the high-brows), should send in the name to the editor of THE REVIEW.

One other important matter about the re-unions: if the secretary of any class is inactive, let the live men, or any live man, in the class seize the defunct office and not let the class fail to get together for want of leadership. Have every living man in the class in Chapel Hill at the re-union. Don't wait. Don't regret at commencement that you didn't get at it sooner.

Do it now!

THE REVIEW this month regretfully admits lacking the force and point that Dr. Wilson, its editor, **BY WAY OF EXPLANATION** would give it, were he here to look after it. A sudden severe attack of grip made it necessary for Dr. Wilson to drop THE REVIEW and all of his other work, and seek, through a period of rest, to re-enforce his threatened strength and health. THE REVIEW, the University, and the people of the whole State, all of whom he has splendidly served, will keenly miss him, and will hold ready the royal welcome that impatiently awaits his return.

How long you shout doesn't make so much difference. Nor how loud. What counts is getting the right place to shout from. Alumni opinion is **AIR IT** just like public opinion everywhere; the most of the best of it is poured into private ears. And half the time ears don't open into anything. Now there's the letter column of THE ALUMNI REVIEW—empty. We've heard more ideas from the Alumni than we've seen in their REVIEW. And better ones. What's the use of locking up an idea in somebody else's private vault? Put it out where it can fructify. It isn't enough for a man's idea to have what Lowell calls "the masculine quality of fecundating other minds"; it must have a chance to function.

MRS. KIDDER ENRICHES UNIVERSITY LIBRARY

The Late George W. Kidder's Collection of Southern Newspaper Files of the 60's Given to Library

On January 15, announcement was made of a most important and distinctive addition to the University Library through the generous gift of a large and valuable collection of bound Southern newspapers of the periods of the Civil War and of Reconstruction. These papers were collected, bound, and preserved by

GEORGE W. KIDDER

Mr. Edward Kidder, of Wilmington, who, possessing to a high degree the historical instinct and interest characteristic of his family, realized that they would be in time highly valuable. By him they were left to his son, Mr. George W. Kidder, who, a number of years ago, determined that they should be donated to the University where they would be of great and increasing value to historical research in the State. They are now presented by Mrs. George W. Kidder in conformity with the wishes of Mr. Kidder.

Mr. Kidder was a native of Wilmington, who, after service as a lieutenant in the Confederate army, became a member of the well-known firm of Edward Kidder and Sons which conducted for many years an extensive lumber business, chiefly with South Ameri-

ca and the West Indies. No firm in North Carolina business history has enjoyed a finer record of honor, integrity, and efficiency. Mr. Kidder was also for many years treasurer of the Clarendon Water Works Company, one of the first public utility companies in the State. An early member of the Chamber of Commerce of Wilmington, he was always active and enthusiastic in its work.

While always interested in public affairs, Mr. Kidder had no inclination for active participation in them other than as a public-spirited citizen. Sociable, genial, intellectually alert, a courteous gentleman given to hospitality, he endeared himself to a host of acquaintances who were his friends, and impressed his personality deeply and permanently upon his community.

The Library of the University is already rich in secondary works relating to the civil war and the collection should at no distant day become the most important in the South. This distinctive addition of source material, in the shape of newspapers for the period, which could not be duplicated, greatly increases the value of the collection, not only in interest, but as a store of priceless material for the historical investigator. It contains (1) complete files of North Carolina papers, (2) incomplete files of North Carolina papers, and (3) complete and incomplete files of Virginia and South Carolina papers.

A list of the complete sets of North Carolina papers follows:

The Wilmington Herald, 1860, 1861, 1865, 1866.
The Wilmington Journal, 1861 to 1867 inclusive.

The Herald of the Union (Wilmington), 1860.

The North Carolina Standard (Raleigh), 1861 to 1869 inclusive.

The Raleigh Register, 1861.

Incomplete sets of North Carolina papers, 1861, 1865:

The Wilmington Journal, The Wilmington Herald, The Raleigh Register, The North Carolina Standard (Raleigh), The Daily Conservative (Raleigh), The North Carolina Presbyterian (Fayetteville), The Christian Advocate (Raleigh), The Fayetteville Observer, The Daily Progress (Raleigh), The North Carolinian (Wilmington), The Herald of the Union (Wilmington), The North Carolina Times (New Bern), The North Carolina Advertiser (Raleigh), The Iredell Express (Statesville).

Incomplete sets of Virginia and South Carolina papers, 1861-1865:

The Charleston Courier, The Daily Express (Petersburg, Va.), The Richmond Examiner, The Richmond Enquirer, The Richmond Whig, The Daily

Dispatch (Richmond), The Richmond Sentinel, The Day Book (Norfolk), The Central Presbyterian (Richmond).

The Charleston Courier for 1866 is complete. This contains some very valuable material.

CONTEST FOR AYCOCK MEMORIAL CUP

Three Hundred and Twenty-Five High Schools are Competing in Fourth Annual Series of State Debating Union

Not alone in the halls of Congress at Washington is the question of preparedness a topic of absorbing interest at the present time. In North Carolina high schools, from Murphy, Cherokee County, in the west, to Manteo, Dare County, in the east, two thousand young debaters, boys and girls, are at work on the query: "Resolved, That the United States should adopt the policy of greatly enlarging its Navy." On March 31st, twelve hundred of these debaters who will have been chosen as representatives in preliminary contests in their respective schools, will meet in a State-wide debate on this query, the occasion being the annual triangular contests of the High School Debating Union and the ultimate hope of each debating team being the Aycock Memorial Cup. They will speak in 325 communities, representing 325 high schools, in 94 counties of the State.

In preparation for this forensic contest steady work is being done by the contestants. For their benefit during the fall the Bureau of Extension issued a 64-page bulletin, containing explanations of the query, outlines, articles on the affirmative and negative, and references to sources from which further material could be secured. This bulletin, issued in an edition of 3,000, has been in great demand since its publication. In addition, the North Carolina Senators and Representatives in Congress have supplied large quantities of material in answer to requests. Such organizations as the Navy League, of Washington, the League to Limit Armaments, of New York, and the World Peace Foundation, of Boston, report that they have responded to an unprecedented number of requests for literature from this State. The Navy League has had upwards of 200 such requests in less than a month.

Organization

The High School Debating Union is conducted under the auspices of the Bureau of Extension and the Dialectic and Philanthropic literary societies of the University. It was organized during the collegiate year of 1912-13 at the suggestion of C. E. McIntosh, '11, now of Raleigh. Under the regulations of the

Union every school of secondary nature in the State is eligible to enroll. Each school which enrolls is grouped with two others for a triangular debate, each school putting out a team on the affirmative and a team on the negative. The schools winning both debates send their teams to Chapel Hill to compete in the final contest for the Aycock Memorial Cup, the trophy which has been provided by the inter-collegiate debaters of the University for the champion debating team.

In 1913, 90 schools in 40 counties took part in the debates and the Pleasant Garden high school, of Guilford County, won the Cup. In 1914, 150 schools in 64 counties participated and the Winston-Salem high school was the winner of the Cup. In 1915, 250 schools in 90 counties enrolled for the debates and the Wilson high school won the award of the Cup. The present enrolment of 325 schools in 94 counties indicates that the debates this year will be the most comprehensive in scope and far-reaching in results in the history of the Union. During the month of January alone more than 3,000 letters, bulletins, pamphlets, and reports bearing on the debates were sent to the contestants from the Extension offices in Chapel Hill.

Enrolment by Counties

Buncombe leads the State with 14 schools enrolled. Robeson comes next with 12 and Mecklenburg follows with 11. Guilford has 10 and Alamance 9. Johnston, Nash, Wake, and Durham have 7 each. Gaston, Iredell, Union, Sampson, Rowan, and Warren have 6 each. Beaufort, Cleveland, Moore, Northampton, Orange, Rockingham, Scotland, Vance, Wayne, and Wilkes have 5 schools enrolled each. Ashe, Bertie, Pitt, Alleghany, Bladen, Cabarrus, Chatham, Columbus, Duplin, Forsyth, Granville, Hyde, Richmond, and Wilson follow with 4 each. Anson, Caldwell, Carteret, Catawba, Cumberland, Davidson, Franklin, Gates, Halifax, Harnett, Lincoln, Meaon, McDowell, Montgomery, Surry, and Washington have 3 each. Alexander, Burke, Caswell, Cherokee, Craven, Dare,

Edgecombe, Haywood, Henderson, Jackson, Lee, Martin, Onslow, Perquimans, Person, Randolph, Stokes, Swain, Rutherford, and Transylvania have 2 each. Camden, Chowan, Currituck, Davie, Green, Hertford, Jones, Lenoir, Pender, New Hanover, Pamlico, Pasquotank, Polk, Stanly, Tyrrell, Yadkin, and Yancey have one each.

Typical Triangles

A few typical triangles which have been arranged are: Burlington, Chapel Hill and Graham; Winston-Salem, High Point, and Reidsville; Concord, Salisbury, and Statesville; Hickory, Morganton, and Lenoir; Durham, Goldsboro, and Wilmington; Rich Square, Seaboard and Winton; Belhaven, Edenton and Hertford; Cary, Holly Springs, and Wakeon; Manteo, Poplar Branch, and South Mills; Atlantic, Beaufort, and Morehead City; Greenville, Kinston, and Wilson; Harmony, Scotts, and Trontman; Black Mountain, Fairview, and Swannanoa; Biscoe, Norwood, and Troy; Elizabeth City, Newbern, and Washington; Rocky Mount, Tarboro, and Weldon; Henderson, Oxford, and Roanoke Rapids; Almond, Andrews, and Bryson City; Asheboro, Lexington, and Spence; Carthage, Monroe, and Pleasant Garden; Hendersonville, Marion, and Waynesville; Gastonia, Lincolnton, and Shelby; Hillsboro, Lillington, and Mebane; Laurinburg, Lumberton, and Sanford; Belmont, Dallas, and Lowell; Bessemer City, Cherryville, and King's Mountain. Some schools will debate in pairs instead of triangles, as: Charlotte and Raleigh; Asheville and Greensboro; Rockingham and Wadesboro; Chadbourn and Whiteville.

The Finals

The final contest for the Aycock Memorial Cup will be held in Chapel Hill on April 14th, this to be participated in by the winners of the triangular debates. Also, on April 14th the fourth annual interscholastic track meet and the first annual inter-scholastic tennis tournament will be held, the track meet taking place on Emerson Field. It is the plan of the committee to make of this series of contests the largest gathering at any central point of high school students and principals which has ever been held in the State. A full program of entertainment for all who come for the contests is being mapped out by the committee. The attendance is expected to reach 500.

Growth of Idea

Since the idea of the Debating Union was evolved in Chapel Hill the growth of the general plan among other institutions and in other States has been rapid. Virginia, Kentucky, South Carolina, Arkansas, Florida, Tennessee, New Jersey, and California have taken up various modifications of the general idea of a State-wide debating league with marked success. Advisees from Berkeley, Cal., the seat of the State University of California, indicate that that institution is this year conducting the first annual debating contest among the California high schools. A letter from J. Volney Lewis, '91, professor of Geology at Rutgers College, New Jersey, conveys the information that Rutgers College took up a modification of the North Carolina plan last year and is now conducting the second State-wide contest among the New Jersey high schools.

CAMPBELL CHOSEN COACH

Former Harvard Half-back Signs Three-year Contract as Head Coach of Carolina Eleven

The committee which has in charge the matter of securing coaches, consisting of Dr. Charles S. Mangum, of the University faculty, Charles T. Woollen, graduate manager of athletics, and Albert L. Cox, of Raleigh, has secured as Carolina's head football coach for the next three years, Thomas J. Campbell, of Winchendon, Mass., an A. B. graduate of Harvard in the class of 1912. Mr. Campbell comes with high recommendations. His record as a wearer of the crimson was a brilliant one and his experience in coaching since graduation has been successful to a marked degree.

Mr. Campbell expects to arrive in Chapel Hill March 1st, to start work for the 1916 football season,

and get acquainted with the students, members of the faculty, and alumni. He will be in Chapel Hill throughout the entire collegiate year for the next three years. It is thought that by reason of his presence throughout the entire year, he will be able to render valuable assistance in many ways in the constructive work of upbuilding Carolina athletics.

Especially is it considered that the selection of the coach is fortunate in view of the fact that Carolina will have next fall the most comprehensive schedule in the history of the wearers of the blue and white, the schedule calling for games with Harvard and Princeton as new opponents. Mr. Campbell's experience with the big northern teams will doubtless

prove a valuable asset in building a system of strategy for Carolina and in divining the strategy of opponents.

Mr. Campbell's recommendations as a man and a leader of young men are fully equal to his recommendations as a player and coach.

Nothing definite has been decided yet as to who the new coach's assistants will be. It is the plan to secure the assistant coaches from the alumni as far as possible. This is in line with the ultimate aim of those in charge, which is, as has been previously stated in *THE REVIEW*, to develop at Carolina to as complete an extent as is practicable, alumni coaching.

Concerning Mr. Campbell and his experience and ability, the *Tar Heel* of February 5th, has this to say:

"Both as a member of the great Harvard football machines of 1910 and 1911, and as an assistant coach under Percy Haughton he has shown his marked ability and thorough knowledge of the game.

"It was in Harvard's great 0-0 game with Yale in 1911 that Campbell enrolled his name in the hall of gridiron fame. Of this game the New York Sun has the following to say: 'Campbell ran back punts with more decision and judgment than any other Harvard back, and had he had interference for these runs in a broken field, would have put through several lengthy jaunts.' During this and the preceding year he played left half back in great style.

"However, not all of Campbell's knowledge of the game comes from merely having played with the Harvard aggregation. After his graduation he coached at the Morristown School (N. J.) for two years. It was while he was there that Morristown had her brilliant seasons. The headmaster at Morristown has the following to say of him: 'I consider that any college would be remarkably fortunate to secure the services of Mr. Campbell, who coached our football team one or two seasons, but whom we lost, greatly to our regret, owing to his desire to become an assistant to Percy Haughton as coach of the Harvard team, which position he had filled with great success. Mr. Campbell is not only a good coach and a director of athletic sports, but is a man of sound moral character, unusual good sense and judgment and of great popularity among boys and young men. There was no man in the school more respected by the boys than Mr. Campbell. As a football coach we never had a more effective and popular man. His coaching here attracted such attention that he was induced by Percy Haughton to become an assistant coach at Harvard.'

"While a student at Harvard Mr. Campbell was immensely popular with his fellow students. Twice

he was on the Student Council, and at one time he was secretary of his class. His average there was a C which corresponds to our three. All of his classmates speak of him in the highest terms. One of them wired the following: 'Couldn't do better. Campbell is fine. Good player and good sort.' Graduate Manager Moore of Harvard, who should be a very good judge of men, unreservedly recommends Campbell, and 'Reggy' Brown of the Crimson staff has the same thing to say. Every one who has ever come into contact with Mr. Campbell speaks very highly of him. He is sound to the core morally and always takes great interest in helping young men to succeed."

GOOD BASEBALL PROSPECTS

Seventy-five candidates answered the first call for 'varsity baseball practice the first of February. Coach Doak started the squad immediately to work at hitting practice on the class field, awaiting the completion of the new Emerson Field.

The beginning of the season finds eight baseball letter men again candidates for positions. These men are a good nucleus around which to start building a great team, and a good look at the new material on hand gives bright promise of a winning team representing Carolina this spring. The old men to return are: Pitchers Williams and Currie; Catcher Hart; infielders, Captain Patterson, Lewis, and Hardison; and outfielders, Bailey and Zollieoffer.

The pitching staff is looked upon already as perhaps the strongest Carolina has had in some years. Williams with his speed and experience should lead all college pitchers in the State. Currie was last year's freshman find and he is expected to pitch premier ball again this spring. Cuthrell, who has had two years of college baseball at Wake Forest, is rated as one of the State's first class pitchers. He is a master of the curve ball and has excellent strike-out records. Plyler was the best pitcher in the class league a year ago and is expected to strengthen the staff of the 'varsity. Coleman, Kinlaw, and Hill are again candidates for pitcher. There are many new men, too, who are expected to show pitching ability, among them being, Llewellyn of Oak Ridge and Powell of Randolph-Macon Academy.

Hart, who caught Aycock in 1913, is again candidate for catcher. Angel, who graduated in 1914, is back taking law and is making a strong bid for this position. As a member of the Treasury team in the Capital City League at Washington, D. C., he led the league in batting last year. Bennett, of Mercersburg Academy, is another strong man for

catcher. He hits hard. Seales, of New Bern, and others will make strong bids for catcher.

Many excellent infielders have appeared on the field. Captain Patterson will remain at second base. Hardison, first base, and Lewis, third base, are again candidates for the 1916 job. Sheek and Massey are excellent men and may find positions on the infield by means of their excellent slugging qualities. Royster, Boren, Baker, Watkins, Allen, and numerous others will run any man hard for infield positions.

Bailey and Zollieoffer are again found in the outer garden and are very likely to hold their own. Other likely men for the outfield are Barnes, Pippin, Jeanette, Thomas, Wood, Craig and Folger.

From early appearances it seems that Carolina should have the best hitting team in the State. The prospects are good and Carolina should show excellent results when the playing season begins.

HIGH SCHOOL CONTESTS ANNOUNCED

Announcement has been made by the University committee of athletic contests for North Carolina high schools which will be held at the University in the spring of 1916. These contests include the first annual inter-scholastic tennis tournament, the fourth annual inter-scholastic track meet, and the third annual championship contest in baseball. The committee having charge of the contests consists of N. W. Walker, E. R. Rankin, C. E. Ervin, McDaniel Lewis, Hazel Patterson and W. J. Capenhart. The tennis tournament and track meet will be held on April 14th, the same date on which the final contest of the High School Debating Union will be held. The date for the final game in the baseball championship series is yet to be determined. All principals, teachers, and students coming to Chapel Hill for the contests will be entertained free of cost. The track meet and the deciding game in baseball will take place on Emerson Field.

BASKETBALL RESULTS

The basketball team played its first game after the examination period with Maryville College, of Tennessee, on the night of Feb. 3. The resulting score was 39 to 24. Carolina took the lead from the first and maintained it throughout the entire game, Long and Captain Johnson starring for Carolina.

The team took a trip through Virginia Feb. 7-12, which proved rather disappointing from the point of view of games won. They met their first defeat in Richmond at the hands of Virginia. The game was close throughout, and at the end of the first half the

score stood 15-15. Virginia forged ahead in the second half, chiefly through the brilliant playing of Strickling. Tandy played a star game at center until he was forced to leave the game because of four personal fouls. Fouls were numerous on both sides throughout the game.

From Richmond the team went to Roanoke where they were defeated by the strong quint of the V. P. I., 44-27. The next night, Feb. 9, Roanoke College gave them a severe walloping, with a resulting score of 45 to 13. Washington and Lee won by the score of 25 to 18 in Lexington on Friday night, while on Saturday night, Feb. 12, Carolina managed to nose out a victory over the V. M. I., playing extra time to do so—score 25 to 23. On Feb. 16, Carolina defeated the Davidson College team at Chapel Hill by the score of 20 to 14.

FRATERNITY HISTORY

In the February number of the *University Magazine*, Mr. H. V. Johnson contributes an article entitled, "A Sketch of the Fraternities of the University of North Carolina (1851-1915)." In this article the history of fraternities in the University is traced from the time when Delta Kappa Epsilon established its chapter in this institution, April 5, 1851, to the present day.

Excerpts dealing with the post-bellum period of fraternity history in the University are herewith reproduced from this article:

The Lambda chapter of Phi Kappa Sigma was reinstated on April 26, 1877. J. C. Powell, '77, was the prime spirit in the undertaking. Among the early initiates were the following: J. C. Powell, '77, Wm. B. Phillips, '77, J. M. Baker, '77, Richard Dillard, Jr., '77, Arthur Arrington, '78, K. P. Battle, Jr., '79, J. S. Manning, '79, Robert Strange, '79, John M. Manning, '79, F. K. Borden, '79, Ernest Haywood, '82, H. H. Williams, '82, I. H. Manning, '82.

The Alpha Delta chapter of Alpha Tau Omega was established in 1879. The original members were as follows: J. C. Winston, '79, T. D. Stokes, '79, Donnell Gilliam, '80, Thomas Radcliffe, '81, R. P. Gray, '81, Julian Wood, '81, W. T. Dorch, '81, Bartlett Shipp, '81.

The Upsilon chapter of Kappa Alpha owes its origin to J. R. Nicholls, and J. U. Hill. They with M. C. Millender and G. A. Mebane obtained a charter, November 25, 1881. Next joined John L. Borden, and J. S. Mann in 1882. Other early initiates were G. W. Carrington '82, R. T. Grissom, '82, A. E. Wilson, '82, J. W. Wood, '83, J. M. Beall,

'83, R. T. Burwell, '83, P. B. Coxe, A. B. Hill, W. A. Graham, J. M. Morehead.

North Carolina Beta chapter of Phi Delta Theta was established March 28, 1885, the charter members being R. S. Neal, '85, W. H. Carroll, '86, W. H. McDonald, '87, A. M. Simmons, '87, R. S. White, '87, O. D. Batchelor, '88, T. A. Marshall, '88, Graham McKinnon, '88, A. C. Shaw, '88.

The charter of Zeta Psi was granted and the chapter revivified on Dec. 11, 1885, with the following charter members: E. P. Mangum, '85, C. T. Grandy, '86, L. B. Grandy, '86, N. H. D. Wilson, '86, W. J. Battle, '88, C. W. Toms, '89.

Four members of the student body, G. B. Patterson, Claudius Dockery, J. H. Little, and W. deB. McEachin, were instrumental in the establishment of a chapter of Sigma Alpha Epsilon in 1885.

The Beta chapter of Delta Kappa Epsilon was revived March 19, 1886, upon petition of Major H. R. Shorter, '53, Hon. A. B. Irion, '55, and Dr. F. P. Venable. The first initiates were: G. S. Patrick, '86, P. B. Manning, '86, C. F. Smith, '86, R. P. Batchelor, '87, M. H. Palmer, '87, St. Clair Hester, '87.

In 1887 with the following gentlemen as charter members, E. M. Armfield, '88, R. L. Smith, '88, D. J. Currie, '89, W. M. Hammond, '89, W. T. Whitsett, '90, Paul Chatham, '90, H. J. Darnall, '90, the Epsilon chapter of Phi Gamma Delta, was revived.

The Psi chapter of Sigma Nu was established in the fall of 1888 with the following as charter members: Walter Murphy, '92, George Butler, '91, J. T. Bennett, '90, W. E. Darden, '91, and W. H. White.

The Alpha Tau chapter of the Sigma Chi fraternity was installed on May 29, 1889, with the following charter members, L. H. F. Murphy, '90, W. B. Ricks, '90, N. A. Currie, '91, R. A. Urquhart, '92, F. M. Shannonhouse, '92, F. M. Clark, '92.

The original charter members of the local chapter of Beta Theta Pi, established 1890, were J. W. Kestler, '85, W. L. Reece, '85, O. C. Odell, '86, W. A. Self, '85, D. M. Reece, '86, E. B. Cline, '86.

The Alpha Nu Chapter of Kappa Sigma was established in 1892 with G. R. Little, '94, G. S. Wittson, '96, T. M. Hooker, '96, T. P. Braswell, Jr., '96, and J. G. Hollowell, '96, as charter members. In 1895, John F. Nooe, '96, P. R. McFadyen, '97, Joe S. Wray, '97, and J. B. Wilkinson, '97, were charter members of a chapter of Pi Kappa Alpha.

The Kappa chapter of Pi Kappa Phi was established in the fall of 1914, with the following

members: J. S. Bryan, '15, C. A. Bosenan, '15, M. G. Quevedo, '17, G. R. Tennent, '17, R. T. Bryan, Law, '16.

CLASSES PLAN REUNIONS

The past two commencements of the University have been characterized for one thing by the stimulus which has been given the matter of class reunions. At the commencement of 1914, the Class of 1909, on its five-year reunion, and the Class of 1913, on its one-year return, came back in large numbers and broke the ground for future attempts. At the commencement of 1915, the Class of 1905 came back twenty-five strong and showed the present day University some samples of their old time loyalty. They gave to the University a check for \$1000 and they were present in a body at all of the commencement exercises.

The classes which will hold reunions at the approaching commencement are 1866, 1891, 1896, 1906, 1911 and 1915, the fifty, twenty-five, twenty, ten, five and one-year classes respectively. Plans are being made by the members of these classes to return in large numbers for their respective reunions which will be held on Alumni Day, Tuesday, May 30th. The Class of 1911 has had a committee actively at work since last summer in the effect to bring back all members of the class for the biggest five-year reunion in the history of the college. A breezy bulletin is now being prepared by Secretary I. C. Moser, of Burlington. Tents have been secured by the committee, which will be pitched on the University campus for the use of all members of the class. Nothing is being left undone. Nineteen-Eleven plans to revive its old time pep and college spirit and come together for a real good time.

The Class of 1915, under the leadership of President R. G. Fitzgerald, of Hillsboro, and Secretary B. L. Field, of Oxford, plans to break the record for one-year reunions. This Class is planning to have at least seventy-five men present to answer the roll call on Alumni Day. The Class of 1906 has a large job ahead of it when it attempts to match or surpass the ten-year reunion of the Class of 1905, held last commencement, but under the leadership of Captain John A. Parker, Secretary, of Charlotte, it is courageously undertaking to break all previous records for the decade return. F. B. Rankin, of Rutherfordton, Secretary of the Class of 1901, is planning to be present with a full mustering of the fifteen-year class. Mayor Benj. S. Skinner, of Durham, W. H. Swift, of Greensboro, and others of '01

have already laid out their plans to be present on the Alumni Day occasion.

From the Class of 1896, Col. R. W. Blair, Collector of Internal Revenue of Minnesota, stationed at St. Paul, has stated that he will be present for the twenty-year convening of his class on the Hill. Many others, some located close at home and some still further away than St. Paul, have indicated their plan of being present to keep Colonel Blair company. The Class of 1891, beginning with Dr. Charles Mangum, of the University faculty, is expected to have a large delegation present for its quarter-century reunion. The Class of 1866 is expected to lend to the reunion exercises the heartening encouragement of the presence of the old boys. Among other living members of this Class may be mentioned General Julian S. Carr, of Durham, President of the General Alumni Association of the University, W. R. Webb, head of the Webb School, Bell Buckle, Tenn., and A. Ferdinand Johnson, of Clinton.

DR. RICHARD HENRY WHITEHEAD

Dr. Richard Henry Whitehead, professor of anatomy and dean of the medical department in the University from 1890 to 1905, died February 6th at Charlottesville, Va. At the time of his death which was occasioned by an attack of pneumonia, he was dean of the medical department of the University of Virginia.

Dr. Whitehead was born in Salisbury, July 27, 1865, and was thus in his fifty-first year. He received the A. B. degree from Wake Forest College in 1886 and the M. D. degree from the University of Virginia in 1887. Coming to Chapel Hill in 1890 he remained here continuously until 1905. He established the medical department of the University on a firm foundation and was the prime mover in its development to the point where it became one of the leading schools of its kind in the country. Going to Virginia in 1905, he at once took rank as one of the leaders in the faculty of that institution. As dean of Virginia's medical school, he performed invaluable service until the time of his death. In 1910 the University conferred upon him the degree of LL. D.

Upon hearing of his death the faculty of the University passed the following resolutions:

"The members of the faculty of the University of North Carolina learn, with deep sorrow, of the death of Richard Henry Whitehead, Dean of its Medical School, 1890-1905, and for the past ten years, Dean of the Medical School of the University of Virginia, and desire to place on record, in their Journal, their

appreciation of him as a man, a scholar, a teacher, and a dear friend.

"As a man, he was gentle, upright, conscientious, and lovable; of broad views and the highest ideals. As a scholar, his rare intellectual gifts, extensive reading and unwearied industry, won for him distinction in the field of medical science, and he attained remarkable success in building up and directing the two medical schools of which he was the head.

"His personality was reflected in his teaching. Simple in manner and approachable, yet insisting on the highest standards of scholarship and character, he stimulated those he taught to their greatest efforts. His lectures were characterized by clearness of presentation, insight, fullness of knowledge and firm grasp of the subject.

"His loss, at the time of his greatest usefulness, will be deeply felt by his many friends and associates in the faculty, who were tenderly drawn to him by his many endearing qualities.

"For the faculty:

"WM. CAIN,
"CHARLES S. MANGUM,
"CHARLES L. RAPER."

THE MILLER MEETINGS

A series of very effective meetings was conducted by the Y. M. C. A. Feb. 4th, 5th, and 6th known as the Miller Meetings. Mr. Francis P. Miller, a member of the International Committee of the Y. M. C. A. made the addresses of the campaign in a very forcible and convincing manner. Being a young college man himself, a graduate of Washington and Lee University, athlete and scholar, he was able to get in immediate and sympathetic touch with the student body.

The emphasis of the meetings was upon quiet, serious decisions for Christian life and much time was devoted to personal interviews and small group meetings. The most representative men at Carolina discussed individually with Mr. Miller their own personal problems and those of the campus.

Friday night, Feb. 4th, the address was upon the indifferent and apathetic Christian who shirked his responsibility for service. Saturday was devoted entirely to interviews and small group meetings. Sunday morning Mr. Miller spoke on "Selfishness and Sin," while Sunday night his appeal was to the men to face the facts of Christian life, and to make definite decisions for Christ.

Mr. Miller's addresses, interviews and personal influence added new stimulus to the moral forces at Carolina and aroused a new interest in moral and

Christian life that will mean much in the work of the Y. M. C. A. and town churches during the spring.

Here at the same time to assist Mr. Miller in group meetings and interviews, held in the dormitory rooms and fraternity halls, were Mr. Ed. S. King, General Secretary of the Y. M. C. A. at the University of South Carolina, Mr. Roy John, Secretary at Clemson College, S. C., and Mr. O. B. Hinnant, Assistant Secretary at Wilmington, N. C.

1908 STATISTICS

The eighth annual bulletin of the Class of 1908 issued recently by Secretary Jas. A. Gray, Jr., of Winston-Salem, furnishes some interesting statistics concerning the fifty-five living graduates of this class.

Twenty-four members after graduation looked askance at France's decreasing population, married, and are now fathers of an aggregate of 25 children. North Carolina furnished 17 brides and Georgia, Massachusetts, Mississippi, Montana, New York, Pennsylvania, and Virginia provided one bride each. Thirty-nine members live in North Carolina, 4 in Virginia, 3 in Alabama, 2 in Texas, 2 in Pennsylvania. Georgia, District of Columbia, Montana, West Virginia, and Canada claim one man each. Sixteen members are teachers and 11 are lawyers. Four engage in manufacturing and 4 in insurance. Three are engineers and three are salesmen. Two are students and the same number are chemists, bankers, and agriculturists. The vocations of architecture, brokerage, journalism, merchandising, medicine, and the ministry have one member each. Since the bulletin was issued, one member has become a judge of the N. C. Superior Court, W. P. Staey, who held his first court in Halifax early in January.

LECTURE ENGAGEMENTS

Indications are that a large number of alumni will avail themselves of the opportunity of returning to the "Hill" for some of the lectures to be delivered before the University community this Spring. The speakers are all noted men who will be heard with keen interest. The dates for the engagements follow:

The McNair Lectures, March 3, 4, and 5, by Frederiek J. E. Woodbridge, Dean of the Graduate School of Columbia University.

Weil Lectures on American Citizenship, March 29, 30, and 31, by George Brinson McClellan, former Mayor of New York, now professor of political science in Princeton University.

University Exchange Lectures, April 6 and 7, by Patterson Wardlaw, Dean of the School of Education of the University of South Carolina.

Lectures on Art and Literature, April 19, 20, and 21, by Bliss Perry, Lowell Professor of Literature at Harvard University.

NEW YORK NOTES

The North Carolina Society Bulletin of New York of issue January 14th, has the following notes of interest to alumni:

Ralph H. Graves is now city editor of *The New York Times*. He succeeds the late Arthur Greaves.

Joseph B. Cheshire, Jr., son of Bishop Cheshire and a friend of many members of the Society passed through the city twice in December, on his way to and from Bermuda with his bride. She was Miss Ida Rogerson of Edenton.

The Haywood brothers, Alfred W., Jr., and T. Holt, spent Christmas in North Carolina. T. Holt Haywood went to Winston-Salem, Charlotte and Haw River in rapid rotation, while Alfred W. Haywood, Jr., took in Haw River, Raleigh and Chapel Hill. They both had some good hunting.

Thomas Hill of Hillsboro, who holds under lease several plots covered by tennis courts, has converted these plots into ice fields. There is no artificial ice-making plant to do the freezing. Mr. Hill just waits for a cold snap; when it comes he installs cashiers and ticket-takers at the gates of his various ice-fields and lets the public pay 25 cents a head to come in and skate. And they come in great crowds. One of the reservations is at West End Avenue and 96th Street; and the other is at Fifth Avenue and 90th Street.

COACH TRENCHARD LEAVES

Coach Thomas G. Trenchard, for the past three years at the helm of Carolina athletics, left the "Hill" early in February after obtaining his license to practice law at the Supreme Court examination. He has engaged in the timber and real estate business in South Carolina with headquarters at Columbia. During Coach Trenchard's stay on the Hill, Carolina's football standing steadily improved. The good wishes of students and alumni follow him in his work.

FULLER SISTERS PLEASE

The Fuller Sisters, Misses Dorothy, Rosalind, and Cynthia, of Dorset, England, gave a representation of English and Scottish ballads in Gerrard Hall, February 1st, in such a way as to draw after each number favorable comment and prolonged applause.

The entertainment was unlike anything heard in Chapel Hill recently. The program, which consisted of British folk songs, was divided into several sections, children's action songs, songs of battle, ro-

mancees, songs of lovers, home and country. The ballads were sympathetically interpreted by the three singers, all of whom had unusually pleasing voices. Miss Cynthia Fuller furnished accompaniments to all the songs on an Irish harp.

The execution of the ballads was so realistic that one could almost fancy oneself an Englishman of the sixteenth century listening in some baronial hall to a minstrel's martial strain or tale of love.

TWENTY-FOUR LAW STUDENTS RECEIVE LICENSE

Eighteen students from the University Law School received license to practice in North Carolina at the examination conducted by the State Supreme Court in August. In addition, six alumni not going direct from the University Law School received license. The list follows:

J. L. Simmons, Shelby; O. N. Lovelace, Shelby; C. K. Hughes, Asheville; J. L. Cockerham, Lowgap; M. K. Blount, Bethel; Z. V. Norman, Plymouth; R. T. Bryan, Jr., Warsaw; R. H. Shuford, Hickory; W. B. Rouse, Dover; C. L. Bell, Swan Quarter; F. C. Jones, Plymouth; T. G. Trenhard, Chapel Hill; E. G. Mick, Weaverville; J. W. Barber, Pittsboro; Oscar Leach, Raeford; J. D. Odom, Rocky Mount; P. C. Gardner, Shelby; W. S. Wilkinson, Jr., Rocky Mount. Alumni not going direct from Chapel Hill were: E. H. Bellamy, Wilmington; C. N. Cox, Ashboro; J. H. Pou, Jr., Raleigh; C. W. Beckwith, Raleigh; J. C. Lanier, Greenville; H. B. Grimsley, Greensboro.

LATIN AMERICAN CLUB ORGANIZED

A Latin-American Club was organized in the University recently, its purpose being to study Latin-American peoples, countries, and commerce. Membership in the club is composed of students and members of the faculty. Officers are: President, D. E. Eagle; Secretary, C. C. Miller; Advisor, W. W. Pierson, Jr., instructor in History. Meetings are held every two weeks and papers are presented on various aspects of South American life, geography, and trade. Several noted authorities on South American problems and opportunities have been invited to address the club and the student body during the Spring.

THE 1916 YACKETY YACK

Editor-in-chief F. O. Clarkson and business managers G. B. Edgerton and H. B. Hester report that work on the Yackety Yack for 1916 is nearing completion. Material will be sent to the printers March 1st and the book will be ready for distribution May 1st. Quite a bit of space is this year given to the

artistic side of the annual. Among the artists are Russell Henderson, of Westerville, Ohio; E. J. Lilly, Jr., of Asheville; Jacques Busbee, of Raleigh; P. L. Burnette and H. H. Crawford, of the University. The annual is this year dedicated to Dr. F. P. Venable, of the University faculty.

The county and high school clubs will again appear in the book after an absence of two years. Fifteen pages are given over to the humor department, the men having charge of this being E. S. Hartshorn and W. C. Rymer. Among the contributors of poems are: Miss Eleanor Watson, R. B. House, Moses Rountree, and A. M. Lindau. The printing and binding will be done by the Edwards & Broughton Co., Raleigh.

CAROLINA DEBATES HOPKINS AND VIRGINIA

Carolina will this Spring continue her arrangement of the past three years for a triangular debate with Johns Hopkins University and the University of Virginia. The query to be discussed is: "Resolved, That our federal government should compel every able-bodied male citizen between the ages of eighteen and twenty-four to take, under adequate provisions, one year of military or naval training." The debates will be held on neutral grounds, April 29th.

EXTENSION LECTURES

Extension lectures have recently been delivered by members of the University faculty as follows: M. C. S. Noble, township teachers meeting at Selma, February 12th; L. A. Williams, township teachers meeting at Cedar Grove, Feb. 26th; E. C. Branson, before the teachers and farmers of Iredell County, at Statesville, Feb. 12th.

The Churchman's Club of Charlotte will have two Extension lectures by members of the faculty. On May 13th, Prof. E. C. Branson will speak to the club on "Wealth, Welfare, and Willingness." On June 10th, Dr. F. P. Venable will be the speaker, his subject being "Lessons in Democracy from a Swiss City."

Dean M. C. S. Noble of the School of Education will deliver in June, under the Extension system, a series of five lectures to the students of the Summer Session of the Cullowhee Normal School, at Cullowhee.

FACULTY AND ALUMNI PARTICIPATE

Members of the faculty and alumni participated to a large degree in the session of the North Carolina Conference for Social Service held January 23-26 in Charlotte. A. W. McAllister, of Greens-

boro, presided over the general meetings as president of the Conference. W. H. Swift, of Greensboro, took part in the discussions and was elected third vice-president for the ensuing year. C. W. Tillett, Jr., of Charlotte, was chairman of the committee on entertainment for the Conference. Prof. E. C. Branson spoke on the subject of "Recent Progress in Orange County." President E. K. Graham presided over one of the meetings and was elected president of the Conference for the ensuing year.

GARRETT PROMOTED

His many Carolina friends will be interested to learn that C. C. Garrett, of the Class of 1910, has been promoted from the superintendency of the Huntington, W. Va., office to the superintendency of the Wheeling, W. Va., office of the Bradstreet Company. Mr. Garrett was one of Carolina's most popular football players during his college days and was captain of the 1909 team.

SHALL '86 HAVE A REUNION?

A letter was received recently by THE REVIEW from W. S. Dunston, '86, of Birmingham, Alabama, in reference to a 30-year reunion of the Class of 1886 at the approaching commencement. The letter is published herewith and THE REVIEW suggests that all members of '86 get in touch with Mr. Dunston regarding the reunion. Mr. Dunston's suggestion receives THE REVIEW's hearty support.

"I will greatly appreciate it if you can give me the present address of all members graduating in the Class of 1886. I believe it will be possible by a series of letters from one member to another to have a reunion there next June, with every living member present. At any rate two of us here, Mr. Long and I, are willing to endeavor to accomplish this feat."

EXTENSION SERIES NO. 15 APPEARS

Extension Series No. 15 entitled "Third Road Institute" was issued by the Bureau of Extension of the University February 1st. This bulletin contains a complete program of the third road institute of North Carolina held in Chapel Hill February 7-12. In addition it contains articles on good roads by Dr. Joseph Hyde Pratt and others, and a number of cuts of University buildings and scenes.

GLEE CLUB TAKES EASTERN TRIP

The University Glee Club is now busily preparing a program for the spring concerts which begin Feb. 28. An entirely new program is being worked up,

and according to Preston Epps, director, the numbers chosen for the spring concerts are much better than those used in the fall.

The Glee Club expects to leave on the morning of Feb. 28 for Goldsboro, where it will give its initial performance that night. On the succeeding days the club will appear in the following places: Kinston, Feb. 29; Newbern, March 1; Washington, March 2; Greenville, March 3; Raleigh, March 4. The custom was reversed this year—the western trip being taken in the fall and the eastern trip in the spring.

TOOK HIGHEST RANK

Ernest G. Mick, of the University Law Class, won the prize offered by Chief Justice Walter Clark to the student who would take the highest rank in the recent Supreme Court examination for license to practice law in North Carolina. The prize consisted of fifteen volumes of "Modern American Law." Richard H. Shuford, also of the University Law Class, took second rank.

BLACKSTOCK SUPERINTENDENT

C. E. Blackstock, A. B. 1915, has been elected superintendent of the Hendersonville schools to succeed G. C. Briggs, deceased. Until recently, Mr. Blackstock was a teacher in the Canton high school. His election to the Hendersonville superintendency is a tribute to one of Carolina's young alumni in public school work.

NEWS LETTER RECEIVES GIFT

A prominent eastern Carolina law firm whose members are young alumni of the University recently donated fifty dollars to the University News Letter. This gift was appreciated by the editors of the News Letter and was applied towards an increase in the mailing list of the publication. Seven thousand five hundred copies of the News Letter are now mailed each week. If you wish a copy sent you, write the Bureau of Extension to that effect.

IN FEDERAL HIGHWAY WORK

W. L. Spoon, of the Class of 1891, is in the employ of the federal government as senior highway engineer in charge of maintenance work on a division of the Washington-Atlanta highway extending from Fayetteville, N. C., to Atlanta, Ga. Mr. Spoon was one of the pioneers particularly in county highway work in the South. He was at one time connected with the N. C. Geological and Economic Survey, and later was highway engineer for Forsyth County.

THE ALUMNI REVIEW

Issued monthly except in July, August, and September, by the General Alumni Association of the University of North Carolina.

Board of Publication

THE REVIEW is edited by the following Board of Publication:
 Louis R. Wilson, '99 Editor
 Associate Editors: Walter Murphy, '92; Harry Howell, '95; Archibald Henderson, '98; W. S. Bernard, '00; J. K. Wilson, '05; Louis Graves, '02; F. P. Graham, '09; Kenneth Tanner, '11.
 E. R. Rankin, '13 Managing Editor

Subscription Price

Single Copies	\$0.15
Per Year	1.00

Communications intended for the Editor should be sent to Chapel Hill, N. C.; for the Managing Editor, to Chapel Hill, N. C. All communications intended for publication must be accompanied with signatures if they are to receive consideration.

OFFICE OF PUBLICATION, CHAPEL HILL, N. C.

Entered at the Postoffice at Chapel Hill, N. C., as second class matter.

THE UNIVERSITY IN LETTERS

SOME RECENT BOOKS ON GEOLOGY BY ALUMNI

Frequently practical men of affairs call in question the value of what, in academic circles, is popularly styled "research." Because immediate results are not always forthcoming the labor and money spent upon investigations in the laboratories are considered of slight importance.

In an academic community, it is entirely unnecessary to argue the falsity of this assumption. And, fortunately, in a state like North Carolina, it is becoming less and less necessary to point out its falsity, as it is daily being demonstrated that the discovery in the laboratory may bear a direct relation to the yield of corn in the crib or the length of the fiber in the cotton boll.

That this change in point of view has been brought about in North Carolina, is due in part to the improvement in agriculture resulting from soil investigations and surveys made in this and other parts of the country by North Carolina students trained in the laboratories of the University. Since the year 1900 the University has sent sixty of its graduates into state and national soil bureaus and today it has more men engaged in the scientific investigation of soils than any other university in the country. North Carolina's profit in this case has been unusually great, as the State has been able to put its own sons to work on the study of home soils both through its department of agriculture and through the Federal Bureau of Soils.

The booklet named below is another case in point. R. B. Hardison, '07, of Anson county, and R. C.

Jurney, '13, of Forsyth, trained in the University laboratories and assigned to the United States and North Carolina Departments of Agriculture, respectively, under the general supervision of W. E. Hearn, '00, of Orange, have prepared a complete thorough-going analysis of Rowan county soils. The survey shows the locations of the various soils of the county and the kinds of crops which can be grown to best profit upon them. The study is scientific and complete and the Rowan farmer who wishes to get the best results from his labor should have a copy of the publication. Incidentally it contains much of the history of the county and would serve as an excellent handbook in the study of local geography.

Charles H. White, '94, professor of mining and metallurgy in Harvard University and in the Massachusetts Institute of Technology, has recently published "Methods in Metallurgical Analysis," pp. 365, with 106 illustrations. New York: D. Van Nostrand Company, \$2.50 net. 1915.

"In this volume are brought together those methods in metallurgical analysis which, owing to their fitness, seem to have been most generally adopted in American metallurgical laboratories. The procedures are given for the sake of clearness in as direct statement as possible, without regard to literary style.

"Explanatory notes have been introduced where they are most needed by the beginner, but are so subdued as not to annoy the experienced reader who may wish to omit them."

For the benefit of students who have had adequate preparation in qualitative analysis the various operations in both gravimetric and volumetric analysis are described in detail at the beginning of the book, and the methods that such students would ordinarily take up first are given in greater detail than those which are usually assigned after considerable experience has been gained. For more details than it is possible to give in a work of this kind, excellent references are given in foot notes, and a bibliography is added.

J. V. Lewis, '91, professor of geology and mineralogy in Rutgers College, has recently brought out a second edition of his very useful "Determinative Mineralogy," pp. 155. New York: John Wiley and Sons.

The tables make a wider use than is usual of the more easily determined characters, and may be used for the rapid determination of minerals by means of their physical properties, even in the absence of crystals.

"Several more delicate tests that have been introduced in both the text and the tables will aid in the detection of the minute quantities of an element or in making distinctions that are usually difficult and unsatisfactory. Among the former may be mentioned the purple of Cassius test for gold, the reduction of tungsten compounds on aluminum, and the ruby bead for copper and tin. The distinction of aragonite from calcite by means of cobalt nitrate solution is an example of the latter type, while the beautiful dimethylglyoxime test for nickel falls into both categories, since it serves not only for the recognition of nickel compounds in the presence of cobalt, but also for the detection of minute traces of nickel. The reduction of cassiterite through the action of nascent hydrogen is also a simple and thoroughly conclusive test for a mineral that often proves troublesome to the beginner."

This book is designed for the use of students in determinative mineralogy and also to meet the needs of the geologist and the mining engineer.

David R. Shearer, '07, has issued a valuable book on "Electricity in Coal Mining," pp. 84, with 28 illustrations. New York: McGraw-Hill Company. \$1.50.

This is a small treatise covering in a general way the many phases of electrical engineering as applied to coal mining. Such a book must be of great use to the investor, or to the operator, in outlining methods of procedure, "and to the operating engineer in tracing the foundations upon which an electrical power plant may be established and operated in the most efficient manner." The several papers that go to make up the book were published in *Coal Age*, and had undergone revision when the author put them in book form.

Professor Collier Cobb's "Common Rocks and Rock Minerals" has nearly exhausted its second edition, issued only six months after the first edition. The book is now used in nearly all the colleges of this country and of Canada, in departments of highway engineering, forestry, and soils, as well as in geology and mineralogy.

Kraus, the eminent mineralogist of the University of Michigan, has reviewed the book in *Zeitschrift für Mineralogie*, and uses it in his own laboratory. Blanchard uses it at Columbia University with his graduate students in highway engineering. Penn State College uses it in its forestry department and with its classes in soil investigation. It is in use by the secretary of the Committee on Correlation of

the Bureau of Soils, and by most of the field parties of the Soil Survey.

I. F. LEWIS PROFESSOR OF BIOLOGY

Of Ivey Foreman Lewis, new Miller professor of biology and agriculture at the University of Virginia, the *Alumni Bulletin* of the University of Virginia, gives the following sketch:

He received the degrees of bachelor of arts in 1902 and of master of science in 1903 from the University of North Carolina, and doctor of philosophy from the Johns Hopkins University in 1908. While at Johns Hopkins he was successively scholar, fellow, and Bruce fellow in biology. After leaving Johns Hopkins, he spent one semester in study at the Bonn University in Germany, and for two months occupied the Smithsonian table at the Stazione Zoologica at Naples.

During the summers he has been at various times a scientific assistant and investigator for the Bureau of Fisheries, and instructor in botany at the Marine Biological Laboratory at Woods Hole, Mass. He has also studied at the Laboratory of the Brooklyn Institute at Cold Spring Harbor, L. I., and at the Cinchona Station in Jamaica.

In 1905, Dr. Lewis was appointed acting professor of biology at Randolph-Macon College, and was appointed professor at the same institution in 1907, with one year's leave of absence. In 1912, he was appointed lecturer in protistology at the Johns Hopkins University, but resigned without serving in order to accept an assistant professorship in the University of Wisconsin. He stayed at Wisconsin for two years and was then called to the University of Missouri as professor of Botany. He comes to Virginia from Missouri.

Professor Lewis's published papers include the following: "The Life History of *Griffithsia Borentiana*;" "Notes on the Development of *Phytolacca decandra*;" "Notes on the Morphology of *Coleoehaete Nitellarum*;" "Periodicity in *Dictyota* at Naples;" "Alternation of Generations in Certain *Florideae*;" "The Seasonal Life Cycle of Some Red Algae at Woods Hole," and "Chlorochromonas minuta, a new Flagellate from Wisconsin."

Professor Lewis is a member of the Botanical Society of America, and fellow of the American Association for the Advancement of Science. In 1909 he received the Walker prize from the Boston Society of Natural History.

Rev. H. H. Covington, pastor of St. Paul's church, Norfolk, Va., conducted a mission in the Episcopal Church of Chapel Hill from February 8th to 13th, inclusive. Rev. Mr. Covington is an alumnus of the University, a member of the Class of 1893.

THAT 1911 REUNION

The Class of 1911 is riding on the crest of the wave of Preparedness now sweeping the country. Even as early as last summer word was sent out to its members throughout the United States and its Dependencies that the safety, and even existence, of that old 1911 spirit depended upon the mobilization of the whole class at Chapel Hill this coming Commencement.

From the enthusiastic replies received from all points, including the Philippine Islands, the largest crowd that ever flocked back to Chapel Hill for a class reunion will be there for the grand ensemble Monday night,—concluding the biggest night 1911 ever had.

Active preparation for a reunion that will be in keeping both with the reputation of 1911 for doing things and the broad program of achievement adopted and being carried out by the University, has been in progress for months. The Reunion Committee appointed by Archie Dees met first during the summer of 1914. In July, 1915, this committee, reinforced and enthusiastic, met at Chapel Hill and began planning definitely to the end that all paraphernalia and accommodations necessary to guarantee to every one the most fun, were on hand. At the same time to investigate the latest methods of defense being used in Europe so that we could be safe and secure from anything formal or stereotyped which might attempt to break in.

At a full and enthusiastic meeting of the committee held in Charlotte on January 7th the plans heretofore worked out were discussed and perfected—some new and cracking good ideas developed. It can be safely said that the biggest time and most fun any 1911 man ever had at Chapel Hill will be there waiting for him at the tent headquarters on Monday night of this next Commencement. Just seeing everybody again—to say nothing of the University—will be worth a trip, although you may have to come as far as from the Philippines, as will Rube Oliver and G. W. Thompson. Even if Railroad Smith does not turn up among the crew on the Appam, we can count on his being there when the jollification begins.

The chief worry of the committee though at present is the entertainment of the wives and children. Those having any other solution than Cy Thompson's for this problem, submit same at once.

Between now and Commencement notices and other news items concerning 1911's plans will be published in the REVIEW or sent direct to you. Keep on the lookout for the latest. If your address has recently changed,—because of Leap Year or for any other reason, or if you have not received any dope heretofore,—notify Geo. Graham, care of the Asheville *Citizen*, Asheville, N. C., at once.

Don't forget to talk and write about the Reunion. Send

any suggestions to R. G. Stockton, Chairman, Winston-Salem, North Carolina.

THE CLASSES

1886

—Edward W. Pou, of Smithfield, is Congressman from the fourth N. C. district.

1887

—R. T. Burwell, a native of Raleigh, has been living in New Orleans for a number of years. He is a consulting engineer.

1888

—Frank Drew is general manager of the Florida Railway, Live Oak, Fla.

—H. B. Shaw is head of the engineering department of the University of Missouri, at Columbia, Mo.

1889

—Lake Moore is a banker of Muskogee, Okla.

—S. S. Mann, Law '89, is a prominent lawyer of Hyde County, a member of the firm of Mann and Jones, Swan Quarter.

1890

—Geo. P. Howell, Maj. U. S. A., is an instructor in the Army War College, Washington, D. C.

THE UNIVERSITY OF NORTH CAROLINA

ALUMNI LOYALTY FUND

A fund accumulating from the voluntary annual subscriptions of the University's loyal sons, and from class gifts and bequests.

To endow her with steadily increasing means for greater and richer service.

Every man who has enjoyed the benefits of University training in any department or school is invited to become a subscriber to this permanent fund.

The fund will be administered by the President and a committee from the alumni. The principal will not be used.

Subscriptions may be made payable to the Treasurer of the University.

FORM OF SUBSCRIPTION:

University of North Carolina Alumni Loyalty Fund:

I will give to the Alumni Loyalty Fund \$ _____
annually, payable _____ of each year; at which
time please send notice. I reserve the right to revoke at will.
